Introduction:

The FIETE 4x4 camper is a design-oriented, innovative high-tech cabin. It is a unique, built to order product, utilizing superior craftsmanship. In accordance with our high standards, only the best materials and components are used. We offer the FIETE cabin exclusively as a carbon-fiber molded monocoque body, with a 12 V / 220 V or 110V electric power supply and substantial furnishing and equipment options. The list of extras is kept short intentionally; of course we can offer individual solutions to satisfy your specific wishes in a personal conversation.

Validity:

Only the current price list published on our website is to be considered valid. The listed prices are net, excluding VAT, and are to be understood as reference prices. We reserve the right to make changes to equipment, configuration as well as pricing. A binding, total price will be provided in response to a request for a detailed configuration to your specific requirements.
